NEHA GHANSAWANT

+91 9370713380 nehaghansawant.pydata@gmail.com LinkedIn GitHub

Technical Skills

Languages: Python, SQL

Data Analysis & ML: Pandas, NumPy, Scikit-learn, Machine Learning, Statistical Analysis, EDA

Data Visualization: Power BI, Matplotlib, Seaborn

Databases: MySQL, SQL Server

Frameworks & APIs: Django REST Framework

Cloud & Tools: Microsoft Azure (Azure Administrator Certified), Git

Experience

Corestrat **June 2022 - Nov 2024**

Data Analyst *Bangalore, India*

- Engineered automated data pipelines using Python and Azure Data Factory, reducing manual processing time by 60% and improving data accuracy for logistics operations.
- Developed interactive Power BI dashboards tracking KPIs across 500+ logistics operations, enabling real-time decision-making and identifying cost optimization opportunities worth $200K+ annually.
- Built and deployed REST APIs using Django REST Framework to serve analytical insights to 100+ internal stakeholders, improving data accessibility and reducing query response time by 70%.
- Performed comprehensive exploratory data analysis (EDA) on customer behavior datasets (1M+ records), uncovering patterns that increased customer retention by 15%.
- Implemented predictive models for sales forecasting using scikit-learn, achieving 85% accuracy and enabling proactive inventory management.
- Automated financial reporting workflows using Python and SQL, reducing monthly reporting cycle from 5 days to 8 hours.
- Collaborated with cross-functional teams to translate business requirements into technical solutions, delivering 12+ analytics projects on time.

Corestrat **Dec 2021 - May 2022**

Data Analyst Intern *Bangalore, India*

- Conducted data analysis on business datasets using Python (Pandas, NumPy) and SQL, generating actionable insights for 5+ client projects.
- Created data visualization dashboards in Power BI, translating complex datasets into stakeholder-friendly reports.
- Assisted in developing ETL processes to clean and transform raw data from multiple sources, improving data quality by 40%.
- Performed statistical analysis and A/B testing to evaluate marketing campaign effectiveness, informing strategic decisions.

Applause Techno Solutions **Oct 2019 - August 2020**

PHP Developer Intern *Pune, India*

- Developed responsive web applications using HTML, CSS, JavaScript, and Python frameworks, serving 10,000+ users.
- Optimized database queries and backend logic, improving application performance by 35%.
- Collaborated with design and product teams to implement user-centric features based on analytics and user feedback.

Projects

Customer Segmentation Analysis | **Github** | *Machine Learning, Data Visualization*

- Analyzed mall customer data to segment customers based on income and spending behavior, improving understanding of high-value customer groups. Identified key customer segments using K-Means clustering, enabling targeted promotional strategies.

Sales Insights | **Github** | *Power BI, SQL, Data Visualization*

- Built an interactive sales analysis dashboard using MySQL. Visualized performance metrics and profitability trends with Power BI.

Movie Recommendation System | **Github** | *Python, Machine Learning, Scikit-learn*

- Analyzed user behavior and movie metadata to design a personalized movie recommendation engine. Improved recommendation relevance by applying similarity-based algorithms, enhancing user retention strategies.

Education

Priyadarshini Indira Gandhi College of Engineering **2017 - 2019**

Bachelor of Engineering in Computer Science & Engg *Maharashtra, India*

Certifications And Achievements

Microsoft certified: Azure Administrator Associate

IBM: Applied Data Science

GenAI Powered Data Analytics (Forage)

Tata: Data Visualization for Business Insights (Forage)

Deloitte: Data Analytics Job Simulation (Forage)
